

Now Available: The BLADE

The BLADE Series of 14.8 through 39 SCFM air compressors truly sets a new standard for small, quiet commercial duty air compressors. Engineered to produce air with up to 20% less energy than rotary screw compressors, the BLADE series is a one-of-a-kind, extremely cost-efficient product. No air compressor is more reliable than a Mattei, and the BLADE is like nothing you've ever seen.

BLADE Key Features and Benefits

- Slow rpm: 1,050 to 2,332 rpm
- Very quiet: 61-64 dB(A)
- Innovative belt tensioning system
- Low oil carry-over (1-3 ppm)
- One oversized radial bearing
- Dual "V" belts engineered to last long while saving energy
- Extremely competitive pricing
- 5-year RSU warranty
- Reduced maintenance requirements
- Preventative maintenance operations are simple and quick
- Base mount or mounted onto an 80 gallon air receiver

No screw in the world comes close to the BLADE's slow rotational speed or its overall superior vane technology. And not only is the price right, but with a lead time of three to five business days, it can be shipped quickly. You will be more than pleased to find total reliability in the BLADE, much like that of all trusted Mattei air compressor products.

Why Mattei?

Selecting Mattei air compressors always means choosing a product with a true competitive advantage. Our rotary vane technology features a single off-set rotor supported by one Babbit bushing and one oversized radial roller bearing, and blades/vanes that slide in and out of the rotor to form compression pockets. Zero-wear Meehanite® treating process prevents blade wear. In comparison to rotary screw air compressors, our vane technology is simple, while ensuring the best volumetric efficiency.

Our direct-drive Industrial Series products are backed by a 10 year warranty. The newest product, the BLADE series, is part of our new belt-drive Workshop Series and is backed by a 5 year warranty.

All Mattei vane compressors are designed to provide 100,000 hours of service life without a rebuild. Each carries the proven quality of all of our products and our proprietary vane technology is nothing short of a game-changer.
